PRICE 5 CENTS

MR. YOUNG STRICKEN BUT QUICKLY RECOVERS SENATOR HALE TO RETIRE FROM OFFICE

LOCAL NAMES ARE IN COAST DIVORCE ACTION

Secret Answer Filed By
C. C. Cunningham To
Charges

SENSATION PROMISED IN COURT HEARING

The San Francisco Chronicle of April 6th publishes the following: "San Francisco society and elopement is a flutter with apprehension, particularly the Sequoia Club. The cause of it all is the secret answer filed in the Cunningham divorce suit, in which Charles C. Cunningham for merly of Virginia, replies to the charges of his wife Mrs. May Mott Smith Bird Cunningham, formerly of Honolulu.

"It might not be so fearsome if it were not secret. One can never tell what may be contained in a secret answer or what may follow, as in 'Mother Goose,' when the pie was opened.

"Enough has been revealed, however, to indicate that there will be no positions concerning drinking bouts at clubs, dances and taxicab rides and many interesting letters received from admirers by Mrs. Cunningham, in which certain well known men in society, both here and at Honolulu played a part, among them being Professor Robert Wood of the Johns Hopkins University, formerly a brilliant light in the island set; Gerritt P. Wilder and Tarn McGrew, also of Hawaiian society, and Carlo Baron who recently married Mrs. Virginia Bogue, as well as E. Lyons of the firm of E. G. Lyons & Raas of this city.

"At the Sequoia Club yesterday afternoon an inquiry for Cunningham called forth from the secretary the following denial:

"Mr. Cunningham is not here, and furthermore, we do not consider him a member of this club. He hasn't paid his dues, and I think this secret answer to his wife's divorce complaint is just awful.

Issues a Statement.
"It was true—Cunningham was not here. He was later discovered at his office at 660 Market street where he consented to make what he described as a signed statement concerning the secret answer. Taking a pencil and paper he wrote the following illuminating statement:

"At the request of Mrs. Cunningham's attorney, my answer was sealed.

POLLARD KIDDIES MEET PILIKIA

There is little likelihood that the Pollard Lilliputians will again visit Honolulu under the direction of Manager A. H. Pollard, if the story appearing in Far Eastern press can be taken as a criterion concerning the future action of the clever band of diminutive performers.

The Lilliputians number their friends in Honolulu by legion. They have served to amuse the theater-going public on more than one occasion.

It was during the engagement at Madras, India, that the Pollard kiddies met with "Old Pilikia." They fled charges with E. R. Osborne, barrister, and secretary of the So-

HARBOR BILL

WASHINGTON, D. C., Apr. 19.—The Senate today passed the Rivers and Harbors Bill, so seriously criticized by Senator Burton, with comparatively little amendment.

This year's Paris fashions must be relegated. They were in use before the flood.—Pittsburg Post.

Russians Tear Down Signs

Official Posters Are Removed
By Irate Immigrants
At Capitol

The discontented Russian immigrants plainly showed this morning that they have not recoiled from their stand of hostility to the idea of sugar plantations and also indicated that they do not care much for the authority of the Territory of Hawaii, as expressed through the Territorial Board of Immigration.

A messenger from the office of Governor Frear was detailed to the duty of posting notices, typewritten and in the Russian language informing the immigrants that if they do not accept work today they will lose the offer of \$10 that was promised them for the time they were kept in quarantine but upon their acceptance of plantation work.

When the messenger posted the notices on the hand stand in the Capitol grounds he was surrounded by a crowd of the Russians who loiter there all day. As soon as they grasped the meaning of the notice they shoved the boy aside and with Russian curses and the English "plantation no good" tore the sign down.

The same experience befell the messenger at the Iwilei camp and when he began to post the signs he was allowed to do so then shoved aside and the circular torn down.

A conference was held this morning between Richard Ivers, president of the Territorial Board of Immigration and Governor Frear, at which it is understood the uncompromising attitude of the Russians received further consideration.

NUUANU DAM COST \$296,000

The Nuuanu dam cost the people of Hawaii the sum of \$296,000, according to the statement by Superintendent of Public Works Marston Campbell this morning. The practical completion of the dam was announced last week and the Superintendent of Public Works now states that it is ready for business, with twenty-three feet nine inches of water impounded and prepared to be used by the City and County of Honolulu.

The completion of the dam and the additional supply of water, coupled with the placing of the new high lift pump, it was hoped would have the effect of reducing the water rates of the city but the two additions to the water supply of the city seem to have had an opposite effect.

Of the sum mentioned \$135,000 has been expended under the administration of Marston Campbell.

County of Honolulu.

Pollitz Is Heard From

The Henry Waterhouse Trust Company received a cablegram this morning from their San Francisco correspondent, Edw. Pollitz & Company, stating that raw sugar sold in New York at 4.27; later in the day they received a second cablegram announcing that it had still further advanced to 4.29.

Sen. Hale To Leave Senate

WASHINGTON, Apr. 19.—Retirement appears to be the order of the day. Following close on the announcement of Senator Aldrich that he will not seek reelection to the Senate, Eugene Hale, United States Senator from Maine, announced today that he would retire at the close of his term of office next March. Ill health is given as the cause for this action.

Congressman Lowden of Illinois, who was elected from the district formerly represented by R. R. Hitt, also stated that he would not seek reelection to the House of Representatives.

Senator Hale has found considerable opposition to his reelection in consequence of the campaign of Judge Powers, a brother of the late Congressman Powers, to secure election to the Senate. It is believed that Senator Hale does not feel that his health justifies his going into a sharp campaign that would be necessary to secure a return. Mr. Hale is seventy-four years old.

MAXWELL MUM ON AUTHORITY

WASHINGTON, D. C., Apr. 19.—Mr. Maxwell, formerly editor of the "American Flag," the organ of the American Merchant Marine League, was before the investigating committee today. He was closely questioned as to the activity of foreign interests against the American merchant marine, but when pressed he refused to give his authority for stating that foreign interests are actively opposing the legislation for the advancement of the American merchant marine.

TEDDY ON FARM

BABLONA, Apr. 19.—Col. Roosevelt spent the day as the guest of Minister of Agriculture Sermony.

GOULD-DREXEL

NEW YORK, Apr. 19.—The wedding of Marjorie Gould to A. J. Drexel took place here today. The wedding was a great social function.

GET WALSH OUT

WASHINGTON, D. C., Apr. 19.—President Taft received a petition today asking that he pardon John F. Walsh, the aged banker who is serving what amounts to a life sentence in the Illinois penitentiary, for irregular banking methods. The petition carries twenty-two thousand names.

There will be meeting of the Oahu League on April 21 and several important matters are to be attended to. The taking over the Athletic Park by the league will be considered, and it may happen that satisfactory terms may be come to.

Alexander Young Stricken In Office

Falls a Victim To Convulsions
And Is Under Care of
Physician

At 11:55 o'clock this morning Mr. Alexander Young, who has just recently celebrated his golden wedding, was taken seriously ill in his office. Without any warning he became rigid as if he were suffering from some form of a paralytic stroke. Unable to rise or even stand, Mr. von Hamm, with the assistance of several of the office employees carried Mr. Young in a chair to his automobile which was standing outside the von Hamm Young office.

In the meanwhile Dr. George Herbert was telephoned for and arrived within a few minutes. After a hurried examination it was decided to remove the patient to his residence at Waikiki. Dr. St. D. G. Walters was summoned and the two doctors accompanied Mr. Young to his residence.

Dr. Walters will remain with the patient at Waikiki until such time as Mr. Young is sufficiently recovered to be left to the care of a trained nurse.

At 1:30 o'clock this afternoon, Mr. von Hamm, who in company with Mrs. Herbert and Walters escorted Mr. Young to his residence at Waikiki, was called up on the phone by the Bulletin and asked if the patient was any better. Mr. von Hamm replied that Mr. Young was resting comfortably and that Dr. Walters was doing all he could to lessen the danger.

"Mr. Young was seized with convulsions while in his office about noon, and I considered it so serious that I called in Dr. Herbert and Walters immediately," stated Mr. von Hamm over the phone.

The doctors have made a thorough examination, and as Mr. Young is now resting comfortably, no change for the worse is anticipated.

MAN HUNT STILL ENGAGES POLICE

Anderson Grace, the escaped negro murderer, is still at large, and although a posse of High Sheriff Henry's men and a number of Sheriff Jarrett's officers are out on the trail, no signs of the wanted man have been discovered.

Chief McDuffie and his staff have been out night and day looking for Grace, but beyond stories brought in by people who think they have seen the murderer, nothing definite has been found out.

The usual crop of stories of night visits of Grace to houses are going the rounds, and the latest is that a man who lives down at Palama got home at midnight and, on entering his front garden, saw a man stretched out near the fence. Although a scare a lot, the owner of the place called out and asked who was there. To his astonishment one of the warders from the jail jumped up and casually remarked that he was waiting for a visit from Grace, who is said to have been on friendly terms with some people who lived near the place.

After a short talk the Palama man said that he, too, would keep watch for the wanted man. The warder remained in front of the house, and the owner sat on a chair on the back lawn. After about an hour's wait, the man on the lawn says that he saw something creeping along on his

THAYER JINGLING PINCHOT MONEY?

Are the political friends of Gifford Pinchot, the deposed ex-chief of the United States Forestry Bureau, furnishing the metallic and valuable sinews with which Alford Findley Thayer, formerly of Honolulu, is making his alleged heavy purchases of sugar lands on the island of Luzon, in the far-away Philippines?

Thayer is known to have been a very close friend of Pinchot before his coming to the Hawaiian Islands and taking up work on the local press. Thayer was for some time connected with the Federal Forestry bureau. He is the author of a work dealing with the forestry question and throughout the publication there can be noted a pro-Pinchot strain which is under good to have sorely nettled the Ballinger forces who have had to do with the ousting of Pinchot.

Thayer has been an ardent supporter and defender of Pinchot even though the ex-Chief Forester had aroused the ire and enmity of the mighty Taft.

After several months spent with the newspaper game in Honolulu Thayer secured a well-paying position as assistant to Victor Clark, the chief of the census for the Territory of Hawaii. It has been freely intimated that Thayer was ordered dropped from the Federal pay roll at the instance of Taft who had been apprised of the attitude taken by Thayer in his ardent defense of Pinchot.

WATER RATE CARD SHOWS LARGE INCREASE

Irrigating Advance Is
Calculated At \$6
Per Acre

CAMPBELL POINTS TO SHIPPING RATE

A comparison of the water rates that prevailed before being superseded by the order of Superintendent of Public Works Marston Campbell, establishing a flat irrigating rate of \$30 per acre per annum or five-eighths of a cent per square yard, shows that the rate of advance per acre is \$6.

Section 3 of the old rate cards reads as follows: "Irrigation where confined to such four hours of the day as are published from time to time by the Superintendent of Water Works at the rate of one half cent per square yard per annum; no annual charge to be less than \$5."

"The advance in rates will not amount to \$5,000 for 5,000 consumers of the city water," declared Campbell this morning in explanation of the advance in the charges. "As I have stated before it is essential that the charges on the harbor shipping shall be reduced and that the burden be more equitably distributed.

"Take the Sierra on her last visit to this port. The charges for water were \$45.35—plainly exorbitant. The excursion steamer Cleveland paid \$201. If the water rate that is charged to the householder is charged to the shipping the Cleveland would have paid about \$6."

"I want it distinctly understood that there is no advance in the household water rates. It applies simply to the irrigating areas and clauses of exemption will be provided that will exclude all portions of areas that are not strictly under cultivation. The portion occupied by the house, the walks, the chicken yard and the stable will be excluded from the area of calculation. I have received many requests from the shipping interest of the Territory to readjust the rates on an equitable basis and that is what I am trying to do."

"TOM" LUCAS DROPS DEAD AT HIS HOME

Thomas R. Lucas, of the firm of Lucas Brothers, died at his home this morning from heart disease. Mr. Lucas was at the telephone when he fell in a faint and did not regain consciousness. He had been down town the early part of the forenoon.

Mr. Lucas had been in failing health for the last year or more, but he refused to give up, and kept going till the last beat of the heart, in a style that was thoroughly characteristic.

"Tom" Lucas was one of the best known citizens of Honolulu. He
